

AMENDMENTS TO THE ABSTRACT

Please insert the following paragraph(s), after page 10, as the abstract in the currently filed specification:

-- ABSTRACT

The invention relates to a coating agent, comprising reactive thinner (D), radiation-hardening unsaturated polyester urethane resins (ABC) with components derived from a polyester (A), multifunctional isocyanates (B) and olefinic unsaturated monomers (C) with hydroxy groups, methods for production and use thereof for coating substrates. --
